

Aloria Health programs specifically address all underlying causes and co-occurring disorders for people with food and body related issues. Through an approach that includes more than treatment, we give clients the tools needed to become their best selves.

#morethan

More than your gender.
More than your sexuality.
More than your age.
More than your race.
More than your underlying issues.
More than your eating disorder.

We are inclusive toward any lived experience.
We care for humans.

PHP/Day Treatment

A balance of self-discovery and group support.

Clients take part in an 8.5 hour program that focuses on the transition of life and their effects on self-perception and self-actualization.

Accepting PHP/Day Treatment admissions for adults 18 plus.

Intensive Outpatient

A balance of flexibility and integration.

The recovery process is integrated into the realities of daily life. Clients can stay connected to outside activities while participating in our programs from 3 to 5 days per week.

Accepting Intensive Outpatient admissions for adults 18 plus and adolescents 14–17.

Residential Treatment

A balance of structure and development.

Clients are provided with the needed structure to support their developing awareness of personal choice, option and change. Our 7-day programming mirrors the progress of life, flow of a day and rhythm of a week.

Accepting Residential admissions for adults 18 plus and adolescents 14–17.

At Aloria Milwaukee we address the medical and nutritional needs of clients and offer a curated balance of psychoeducation, process, expressive, and experiential opportunities to inspire well-being.

Providing care for people with **food and body related issues** as well as the following eating disorder diagnoses:

Anorexia

Binge eating disorder

Body dysmorphia

Bulimia
